

Touhidul Alam Seyam

Web, App and Backend Developer | AI Systems

Chattogram, Bangladesh | +880 1311-104804 | seyamalam41@gmail.com | seyamalam.vercel.app | github.com/Seyamalam | linkedin.com/in/touhidulalamseyam | orcid.org/0009-0007-7512-1893

SUMMARY

Software engineer and 8th-semester CSE student building web and mobile applications, backend services, Python/TypeScript developer tools, and applied ML systems. Currently at Agentic Institute and Hello World Communications Ltd.

CORE SKILLS

TypeScript, JavaScript, Python, SQL, React, Next.js, Node.js, Django, FastAPI, Tailwind CSS, PostgreSQL, MongoDB, Redis, Prisma, Convex, Docker, Git, Vercel, TensorFlow, PyTorch, scikit-learn

EXPERIENCE

Software Engineer | Agentic Institute | Remote | Dec 2025-Present

- Contribute to application development and AI-enabled, agentic software systems across implementation, integration, testing, and delivery.

Software Engineer | Hello World Communications Ltd | Chattogram | Aug 2024-Present

- Build, review, deploy, and support full-stack and AI-enabled applications with cross-functional teams using React/Next.js, Node.js, Python, and PostgreSQL.

Freelance Developer | Self-employed | Remote | Mar 2021-2025

- Deliver web applications for business, nonprofit, academic, and event use - from requirements and interface work through backend development and deployment.

SELECTED PROJECTS

bun-scikit | TypeScript, Bun, Zig | github.com/Seyamalam/bun-scikit

- Built a scikit-learn-inspired ML library with native acceleration, CI/benchmark gates, and 209 tracked runtime exports.

ASRRO Portal | Next.js, Convex | github.com/Seyamalam/asrro

- Built public pages and role-aware operations for membership, events, attendance, content, reports, notifications, and finance access.

Zodic | Python, PyPI | pypi.org/project/zodic/

- Published a zero-dependency, Zod-inspired Python validation package with typed parsing and nested errors.

ML Competition Pipelines | Python, LightGBM, XGBoost | github.com/Seyamalam/playground-series-s6e8

- Created leakage-safe cross-validation, nested target encoding, schema checks, and rank-blending pipelines.

EDUCATION AND RESEARCH

B.Sc. (Hons.) Computer Science and Engineering, BGC Trust University Bangladesh - 8th semester; expected Dec 2026

Ten source-backed research works, including IEEE COMPAS papers, SpringerOpen journal articles, and a 2026 Springer conference chapter. ORCID: 0009-0007-7512-1893
