

Touhidul Alam Seyam

Full-Stack Developer | Software Engineer | Applied AI

Chattogram, Bangladesh | +880 1311-104804 | seyamalam41@gmail.com | seyamalam.vercel.app | github.com/Seyamalam |
orcid.org/0009-0007-7512-1893

SUMMARY

Software engineer and final-year CSE student building full-stack products, Python/TypeScript developer tools, and applied ML systems. Professional experience since 2021; currently at Hello World Communications Ltd with a publication record spanning applied AI and software systems.

CORE SKILLS

TypeScript, JavaScript, Python, SQL, React, Next.js, Node.js, Django, FastAPI, Tailwind CSS, PostgreSQL, MongoDB, Redis, Prisma, Convex, Docker, Git, Vercel, TensorFlow, PyTorch, scikit-learn

EXPERIENCE

Software Engineer | Hello World Communications Ltd | Chattogram | Aug 2024–Present

- Build, review, deploy, and support full-stack and AI-enabled applications with cross-functional teams using React/Next.js, Node.js, Python, and PostgreSQL.

Freelance Developer | Self-employed | Remote | Mar 2021–2025

- Deliver web applications for business, nonprofit, academic, and event use—from requirements and interface work through backend development and deployment.

Research Assistant | BGC Trust University Bangladesh | Chattogram | Jul 2023–2025

- Conduct ML experiments, data analysis, implementation, and academic writing across computer vision, healthcare, cybersecurity, LLMs, and clustering.

SELECTED PROJECTS

bun-scikit | TypeScript, Bun, Zig | github.com/Seyamalam/bun-scikit

- Built a scikit-learn-inspired ML library with native acceleration, CI/benchmark gates, and 209 tracked runtime exports.

ASRRO Portal | Next.js, Convex | github.com/Seyamalam/asrro

- Built public pages and role-aware operations for membership, events, attendance, content, reports, notifications, and finance access.

Zodic | Python, PyPI | pypi.org/project/zodic/

- Published a zero-dependency, Zod-inspired Python validation package with typed parsing and nested errors.

ML Competition Pipelines | Python, LightGBM, XGBoost | github.com/Seyamalam/playground-series-s6e8

- Created leakage-safe cross-validation, nested target encoding, schema checks, and rank-blending pipelines.

EDUCATION AND RESEARCH

B.Sc. (Hons.) Computer Science and Engineering, BGC Trust University Bangladesh — Expected Dec 2026

Ten source-backed research works, including IEEE COMPAS papers, SpringerOpen journal articles, and a 2026 Springer conference chapter. ORCID: 0009-0007-7512-1893
